👤 PROFILE

Computer Science and Data Science graduate with hands-on experience in Python, SQL, Power BI, Data Analysis, and Web Development. Skilled in data cleaning, visualization, database management, and responsive web development through academic projects and internships. Quick learner with strong problem-solving and teamwork skills, seeking an entry-level Software Development or Data Analyst role.

📁 EXPERIENCE

- Web Development Intern, Edutainer** 02/2026 – 05/2026
- Worked on webpage layouts and responsive design basics.
 - Gained exposure to practical web development workflows.
- Application Developer Trainee, Rooman Technologies** 05/2025 – 08/2025
- Developed responsive front-end webpages using HTML and CSS.
 - Learned application workflows and UI structure fundamentals.
- Data Science Intern, CodeAlpha** 02/2025 – 04/2025
- Performed data cleaning, preprocessing, and visualization using Python, Pandas, and Matplotlib.
 - Worked with datasets to identify trends and improve analytical understanding.

📁 PROJECTS

- IoT LPG Gas Leakage Detection System**
- Developed an IoT based safety monitoring system using Raspberry Pi and gas sensor to detect LPG leakage and generate real time alerts.
 - Implemented emergency shutdown logic, buzzer alert, sensor monitoring and automation to improve safety response.
- Bloom E-Commerce Application**
- Built a web based e commerce application with user authentication, product listing, cart functionality and basic order flow.
 - Used HTML, CSS, JavaScript, database concepts and backend logic to create a simple user friendly shopping platform.
- Iris Flower Classification**
- Developed a machine learning classification model using Python to predict Iris flower species.
 - Performed data preprocessing, model training, testing and accuracy evaluation.
- Sales Prediction using Python**
- Created a regression based sales prediction model using Python.
 - Performed data cleaning, exploratory data analysis, visualization and model evaluation to identify sales trends.

🧠 SKILLS

Technical Skills

Python, HTML, CSS, JavaScript, SQL, MySQL, Excel, Power BI, Git, GitHub, Visual Studio Code, Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA)

Soft Skills

Communication, Problem Solving, Teamwork, Adaptability, Time Management

🎓 EDUCATION

- B.E – Computer Science & Data Science, K.N.S Institute of Technology** 12/2022 – 05/2026
CGPA: 7.8 Bengaluru, Karnataka
- 12th – PCMB, GOVT SHVNM Girls PU College** 03/2020 – 07/2022
62% Bengaluru, Karnataka
- 10th, Morarji Desai Residential School** 09/2015 – 06/2020
77% Ramanagar, Karnataka

📜 CERTIFICATIONS

Data Science & Analytics

- HP LIFE, 2025-03
- Learned basic data analysis, visualization, and data-driven decision-making

Application Development Web Mobile

- Rooman Technology Private Limited, 2025-10
- Learned basic web and mobile app development, frontend concepts, programming logic, and application design.

Apache Hive

- Analytics Vidhya, 2025-05
- Learned HiveQL, data warehousing concepts, and big data analysis using Apache Hive.

Software Engineering Job Simulation

- Forage, 2025-07
- Gained practical exposure to coding, debugging, software development workflow, and problem-solving tasks.
